Networking

Linksys EtherFast BEFSR81 Broadband Router - 8 x 10/100Base-TX LAN, 1 x 10Base-T WAN	\$93.88	1	\$93.88
--	---------	---	---------

Do you find Internet sharing software to be nothing but a hassle? Can't find a simple and inexpensive way to share your one Internet IP address over your entire network? If so, then the Linksys EtherFast® Cable/DSL Router is exactly what you're looking for. The Linksys EtherFast® Cable/DSL Router with 8-Port Switch is the perfect solution for connecting up to 253 of your PCs to a high-speed Broadband Internet connection or to a Fast Ethernet or Ethernet backbone. Configurable as a DHCP server or client for your network, the EtherFast® Cable/DSL Router with 8-Port Switch acts as the only externally recognized Internet gateway on your local area network (LAN). The EtherFast® Cable/DSL Router can be configured via SNMP to filter internal users' access to the Internet and serve as an Internet firewall against unwanted outside intruders. The EtherFast® Cable/DSL Router with 8-Port Switch features such advanced functions as dynamic and static port routing, DMZ hosting, filtering and forwarding, and Quality of Service capabilities. And all of these functions can be easily configured through any networked computer's web browser.
