FOR IMMEDIATE RELEASE

QuoteWerks Expands Accounting Integrations With 3rd Party Link to MAS 90 and MAS 200

Authorized QuoteWerks development partner Hilltops IT developed and released a new link to integrate Sage's MAS90 and MAS200 applications with QuoteWerks.

ORLANDO, FL (Vocus/PRWEB) November 13, 2008 — Aspire Technologies, Inc., a leading provider of sales quoting software solutions for the global small and mid-markets, confirmed today a new third party link called ConnectIT-MAS90 for QuoteWerks has been commercially released which will allow users to integrate their QuoteWerks installation with the MAS 90 and MAS 200 accounting solutions from Sage Software.

Hilltops IT, a UK-based technology firm and long standing QuoteWerks Sales and Development partner, developed the integration utilizing the QuoteWerks API. The ConnectIT-MAS90 link for QuoteWerks is compatible with MAS90 and MAS200 (v4.2 and above) accounting applications, and enables users to automatically create documents, customers, and vendors in the MAS products quickly and accurately from within QuoteWerks.

ConnectIt-MAS90, which can be launched from the Tools menu in QuoteWerks, supports the creation of the following MAS document types: S/O Quote, S/O Sales Order, S/O Invoice, S/O Credit Memo, A/R Invoice, and A/R Credit Memo. Additional core features of the link include:

- The automatic creation of new customers and vendors in MAS without having to leave the QuoteWerks application.
- Bi-directional transfer of unique document reference numbers between QuoteWerks and MAS for auditing purposes and inclusion in document templates.
- Intuitive and easy to navigate user interface further streamlining the sales quoting and reporting process.
- Multiple configuration options allowing for customization to meet the user's unique business needs.

"The ConnectIT-MAS90 capabilities were specifically designed to improve the usability and efficiency levels of the end user," explains Stephen Siggs, the principal developer for the link and CEO of HilltopsIT. "Moreover, users can now achieve a greater level of accuracy through a direct data exchange and the avoidance of recreating the data manually in MAS once a QuoteWerks document has been created."

The ConnectIT-MAS90 link is compatible with the Standard, Professional and Corporate editions of QuoteWerks 4.0 Build 17 and higher. The link is available through Hilltops IT directly. For more information or to purchase the ConnectIT-MAS90 link, please direct your inquiries to sales@connectit-online.co.uk.
